

Amendment Summary Information

Amendment Tracking Number: 2011-011

Amendment Classification: Minor

Amendment Status: Proposed

Amendment Title (maximum length 250 characters): Minor amendment (2011-011) to the Temagami Land Use Plan and associated policy reports of the Crown Land Use Policy Atlas in MNR's North Bay District

Amendment Summary (maximum length 500 characters):

This minor amendment proposes to update and clarify the Crown Land Use Policy Atlas (CLUPA) policy reports associated with the Temagami Land Use Plan (TLUP). The proposed amendment will result in corrections to all 74 CLUPA policy reports associated with the TLUP. In addition, a re-designation of 29 General Use Areas to Enhanced Management Areas is being proposed to ensure that the CLUPA policies reflect the intent of the TLUP and that the management areas are categorized consistently throughout the province.

PART 1: Amendment Originator**1.1 MNR Originator or Custodian Information**

Staff Contact:	Julie Robinson, Acting District Planner
Originating/Custodian Office:	Ministry of Natural Resources, North Bay District
Address:	3301 Trout Lake Road, North Bay, ON P1A 4L7
Phone Number:	705-475-5546
Fax Number	705-475-5500

1.2 External Party Information (If applicable)

Date of Request:	YYYY-MM-DD
Name of Individual or Group:	
Address:	
Phone Number:	
Fax Number:	

The personal information included on this form is collected under the authority of the *Public Lands Act* in order to make decisions about managing public lands in Ontario. Release of personal information submitted on this form is governed by the *Freedom of Information and Protection of Privacy Act*. All proposed amendments to MNR's area-specific land use policy will become a part of the permanent public record.

PART 2: The Proposed Amendment

2.1 Description of the Amendment

Provide a detailed description of the amendment and name the specific planning documents to which the amendment applies.

This minor amendment proposes to update and clarify 74 Crown Land Use Policy Atlas (CLUPA) policy reports associated with the Temagami Land Use Plan (TLUP). The intent of this proposed amendment is to: keep the land use plan current and relevant to reflect changes in provincial direction, MNR policies, and local circumstances; provide clarification of existing land use direction; and to ensure that the intent of the management areas of the TLUP are accurately represented and are easily accessible to the public through the CLUPA.

With this minor amendment, 29 General Use Areas (GUAs) in the CLUPA are being proposed for re-designation. These Special Management Areas (SMAs) in the TLUP, currently designated as GUAs in the CLUPA, are being proposed for re-designation as Enhanced Management Areas (EMAs). Specifically, the following are being proposed for re-designation:

- Matabitchuan River (G3b to E331n)
- South Temiskaming (G1989 to E332r)
- Hartle Lake (G2006 to E333r)
- Rabbit Lake / Cassels Lake (G2008 to E334r)
- Lorrain Lake (G1959 to E335r)
- Lorrain Highlands (G1961 to E336r)
- White Bear Forest (G1966 to E337n)
- Boyce Lake (G1967 to E338r)
- Wasaksina Lake (G1972 to E339r)
- Wendigo Lake (G1976 to E340r)
- Kittson Lake (G1978 E341r)
- Lundy Lake (G1980 to E342r)
- Indian Bay South (G31a to 343n)
- Eagle Lake (G1985 to E344r)
- Kokoko Lake (G1987 to E345r)
- Cross Lake (G1957 to E 346r)
- Lake Temagami (G1988 to E347r)
- East Gull (G1990 to E348r)
- Leroche (G1992 to E349r)
- Mosquito Lake (G1994 to E350r)
- Obabika Lake (G1995 to E351r)
- Fry Lake (G1997 to E352r)
- Yorston River / Selkirk Creek (G1998 to E353r)
- Lahay Lake (G2002 to E354r)
- Landers Lake (G2003 to E355r)
- Upper Stull Creek / Lady Dufferin Lake (G 1860 to E1779r)
- North Lady Evelyn River Headwaters (G1865 to E1780r)
- Makobe Lake Headwaters (G1866 to E1781r)
- Makobe River West (G1861 to E1782r)

With regards to updates to the TLUP, a one-page insert will be added at the beginning of the plan to provide clarification on the new review requirements as per the Guide for Crown Land Use Planning (2011) and the most current legislation/policies. The one-page insert will also advise individuals to refer to the CLUPA for the most current and up-to-date policy information for the management areas.

2.2 Type of Amendment

Check all that apply:

- A.** Re-designation of a land use area(s) – complete A below.
- B.** Change to CLUPA policy report(s) – complete B below.
- C.** Change to other area-specific land use policy *inside* CLUPA area (e.g., Temagami Land Use Plan, EMA plans, signature site strategies, or other special area plans) – complete C below.
- D.** Change to area-specific land use policy *outside* CLUPA area – complete D below.

A. Re-designation Of A Land Use Area(s) Not applicable

List the Area ID# of all land use areas that will be impacted spatially by the re-designation. For each land use area, characterize the spatial change as one of the following: 1) increase in area, 2) decrease in area, 3) new land use area, 4) deletion of entire land use area. The “Change in Hectares” should reflect the type of area change specified in the third column. If the entire land use area will be deleted, then the area change should be shown as zero. Prepare required mapping and reference the applicable map number below.

B. Change to CLUPA Policy Report(s) Not applicable

List the Area ID# for all policy reports that are involved in this amendment. For “Policy Report Action,” indicate whether 1) a “new” policy report is being created, 2) a policy report is being “deleted” entirely, or 3) a policy report is being “amended”. If a policy report is being amended, using the ‘track changes’ tool in MSWord and attach and list in Section # 5. The table is limited to

Area ID#	Area Name	Brief Description of Change (Addition/Deletion/Amendment)	Policy Report Action <i>[choose one of the check boxes]</i>

C. Changes to Other Area-specific Land Use Policy Inside CLUPA Area (e.g., resource management plan) Not applicable

Provide an attachment to this form which shows changes to the area-specific land use policy. Provide an excerpt from the planning document and use the 'track changes' tool in MSWord to illustrate proposed or approved changes.

Name of Document(s) Being Amended: Temagami Land Use Plan

A one-page insert will be added at the beginning of the plan to provide clarification on the new review requirements as per the Guide for Crown Land Use Planning (2011) and the most current legislation/policies. The one-page insert will also advise individuals to refer to the CLUPA for the most current and up-to-date policy information for the management areas.

D. Changes to Area-specific Land Use Policy Outside CLUPA Area Not applicable

If applicable, list the Area ID# for all policy reports involved in this amendment. For “Policy Report Action,” indicate whether 1) a “new” policy report is being created, 2) a policy report is being “deleted” entirely, or 3) a policy report is being “amended”. If a policy report is being amended, using the ‘track changes’ tool in MSWord and attach and list in Section # 5.

Area ID#	Area Name	Brief Description of Change (Addition/Deletion/Amendment)	Policy Report Action <i>[choose one of the check boxes]</i>
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend
			<input type="checkbox"/> New <i>or</i> <input type="checkbox"/> Delete <i>or</i> <input type="checkbox"/> Amend

If another land use planning document is being modified, provide an excerpt from the document and use the “track changes” tool in MSWord to illustrate proposed or approved changes. Attach the excerpt.

Not applicable or Name of Document(s) Being Amended:

2.3 Need for Amendment and Analysis

Provide a summary of why the amendment is being proposed (i.e. need and purpose).

If this amendment is part of another planning process or if the amendment will be reflecting a decision that has already been made through another process with public consultation, describe these other processes.

This minor amendment proposes to update and clarify the Crown Land Use Policy Atlas (CLUPA) policy reports associated with the Temagami Land Use Plan (TLUP). The proposed amendment will result in corrections to all 74 CLUPA policy reports associated with the TLUP. In addition, a re-designation of 29 General Use Areas to Enhanced Management Areas is being proposed to ensure that the CLUPA policies reflect the intent of the TLUP and that the management areas are categorized consistently throughout the province.

The amendment is required to reflect decisions made after the development of the TLUP. Decisions resulted from the preparation of: Resource Management Plan for Conservation Reserves (CR44, CR32, CR52, C1608, CR53, CR50, CR55, CR33); Statement of Conservation Interest for Conservation Reserves (CR3a, CR4a, CR5, CR9, CR15, CR17, CR31b, CR40a, CR40b); Park Management Statement for P1920; Park Management Plans (P1916, P1839, P1917, P173e, P1918, P1921); and the Crown Land Recreation Plan Temagami Integrated Planning.

Provide an assessment of the proposed amendment, including:

- Anticipated public reaction

- Potential significant social, economic or environmental impacts
- Magnitude and significance of proposed changes to land use designations and boundaries
- Significance of changes to permitted uses policy

The Temagami Land Use Plan (TLUP) is working well; however, this amendment is required to correct inaccuracies in the Crown Land Use Policy Reports associated with the TLUP. Re-designations are required to ensure the intent of the TLUP is accurately reflected in the CLUPA and to categorize management areas consistently throughout the province. Public reaction to this amendment is expected to be mixed. The amendment does not propose changes to land use intent; however, the proposed re-designations may be perceived by some as providing higher levels of protection. The re-designations are simply a name change and will not affect permitted uses within the management areas.

The public may react to a scoped review being completed rather than a full plan review. As per the Guide to Crown Land Use Planning (2011), a scoped review was completed as the plan continues to meet its objectives and intent.

PART 3: Screening and Consultation

3. Screening of Amendment

Screening is done to confirm: a) the classification of the amendment and b) the proposed action.

3.1 Classification of Amendment

Choose appropriate drop-down:

Minor

Provide a rationale for the classification:

The proposed amendment is administrative in nature as there are no changes to land use intent; the changes are primarily to clarify, correct, and update the content of the CLUPA policy reports. This amendment is classified as a minor amendment to accommodate the potential desire by the public for consultation. A posting on the Environmental Bill of Rights with a 45-day comment period and a provincial mail-out will be undertaken.

Note: If classification is administrative, proceed immediately to Part 4 of this form, i.e., screening approvals not required.

3.2 Amendment Action

Check one of the following:

- Proceed immediately. Detailed consideration is warranted.
- Defer subsequent consideration. Consideration is warranted but is not urgent and/or is not timely.
- Do not proceed with amendment. Proposed amendment would be more appropriately dealt with as part of another process.
- Do not proceed with amendment. Amendment is unnecessary, inappropriate or frivolous.
- Return amendment request to initiating MNR office or external party for possible re-submission. Amendment request documentation is incomplete.

Provide a rationale for the action and any specific action and consultation requirements:

Proceeding immediately with the amendment will allow for the required clarification, corrections, and updates to be completed to both the CLUPA policy reports and within the land use plan. It will also fulfill the commitment for a scheduled review set-out in the TLUP.

3.3 Screening Approvals

Note: Approvals for administrative amendments also confirm the “screening” classification and action.

Recommended by appropriate manager(s):

NAME	TITLE	SIGNATURE (hardcopy only)	DATE
Dave Payne	District Manager - North Bay District		2011-12-01
			YYYY-MM-DD
			YYYY-MM-DD
			YYYY-MM-DD

Approved by appropriate director(s):

NAME	TITLE	SIGNATURE (hardcopy only)	DATE
Pierre Corbeil on behalf of Ginette Brindle	Regional Director - Northeast Region		2011-12-16
			YYYY-MM-DD
			YYYY-MM-DD
			YYYY-MM-DD

3.4 Public Consultation

Describe the scope of public consultation that was carried out, including the rationale for the consultation approach. Where consultation has occurred as part of a separate planning process that is adequately documented elsewhere, refer to the existing documentation.

Enter text here...

Provide a summary of public input. (Where there is adequate documentation elsewhere, e.g., EBR decision notice, refer to the location of the documentation). If the proposed amendment has changed as a result of public consultation, describe these revisions. If necessary, depending upon the changes (e.g., revised area boundaries), update the appropriate sections.

PART 4: Amendment Approval

4.1 Decision on the Proposed Amendment

Amendment Decision:

Rationale for Decision:

Recommended decision for classified administrative or minor amendment by appropriate manager(s):

NAME	TITLE	SIGNATURE (hardcopy only)	DATE
			YYYY-MM-DD
			YYYY-MM-DD
			YYYY-MM-DD
			YYYY-MM-DD
			YYYY-MM-DD

Recommended decision for classified major amendment by appropriate director(s), assistant deputy minister(s) and Deputy Minister:

NAME	TITLE	SIGNATURE (hardcopy only)	DATE
			YYYY-MM-DD

4.2 Approvals for administrative and minor amendments.

Note: Approvals for administrative amendments also confirm the “screening” classification and action.

Approved by appropriate director(s):

NAME	TITLE	SIGNATURE (hardcopy only)	DATE
			YYYY-MM-DD
			YYYY-MM-DD

4.3 Approval for major amendments.

Complete table below following Minister’s approval.

APPROVED BY	NAME	DATE
Minister of Natural Resources		YYYY-MM-DD

Date amendment takes effect (if different than date of approval): YYYY-MM-DD

PART 5: Reference Material and Attachments

5.1 Reference Material and Attachments

Check all that apply and provide reference details.

Type of Attachment/ Reference Material	Reference Details (hyperlinks provided by NHLUPS)

5.2 Communication of Proposal and/or Decision

Describe how the proposal and/or decision was communicated (e.g., newspaper ad, stakeholder mail out, Environmental Registry, Crown Land Use Policy Atlas posting):

The proposed amendment will be communicated through newspaper advertisements, a local and provincial level stakeholder mail-out, an Environmental Registry posting, and a Crown Land Use Policy Atlas posting. Moreover, MNR staff will also attend meetings with interested parties in order to explain the proposed amendment and to obtain input. MNR encourages public participation in the review of this proposed amendment.
