

Dear Mr. Peter Healy, Temagami Lake Association,

Thank you for becoming a new “paperless” participant in the Canadian Lakes Loon Survey.

All your electronic resources are available for download in the folder <https://www.dropbox.com/sh/bexlvgtz2mlpkn1/pru-H8EENo> including:

- clls cover letter 2013 final.pdf
- 2013cllskitinstructions.pdf
- clls reporting form 2013\_for field use if needed.pdf
- ccwhcflyerfinal2009.pdf

Please take the time to review the letter, instructions and the reporting form prior to surveying. You will only need the CCWHC flyer if you find a dead loon. In addition, you can learn more about common loons by visiting our website [www.birdscanada.org/volunteer/clls](http://www.birdscanada.org/volunteer/clls) or Hinterland Who’s Who on Loons <http://www.hww.ca/en/species/birds/loon.html>.

You can submit your data using the online form on the Canadian Lakes Loon Survey website at <http://www.birdscanada.org/dataentry/cllslogin.jsp?lang=EN&ts=1368729945916>

- Your Participant Number is: **104558**
- Your password is : **POH 2H0**

If you have not submitted CLLS data in the past your temporary password will be your postal code.

The CLLS data submission form is very straight forward but here are some helpful pointers.

- 1) Each year you will be asked to create a form for each lake section that you survey.
- 2) Once you create your form you can return to that same form as many times as needed to complete your data.
- 3) Most lakes already have a lake and section ID, thus take advantage of the built in lake database to ensure you have the correct lake id.
- 4) There is no “submission” button, as you enter your data it saves it right into BSC’s database, if needed you can return later and correct errors.

Thanks again for participating, if you have any questions or concerns contact Kathy Jones at [volunteer@birdscanada.org](mailto:volunteer@birdscanada.org) or 888-448-2473 ext. 124.
