Q3 A small percentage of TLA expenses go towards maintenance and staffing at TLA headquarters. Our TLA HQ building has been criticized for its mainland location, and deemed by some to violate the spirit of the Tenets. The current Board is exploring options, including leasing a TLA HQ in new facilities at an alternative location. To guide the Board, which response below most closely aligns with how important you think it is for the TLA to maintain a “physical presence” on the Lake and WHERE ? (CHOOSE/CHECK ONLY ONE). If you wish to elaborate, please do so at "Other".

ANSWER CHOICES	RESPONSES	
I feel strongly that the TLA needs a building/HQ, and I like the current location. The TLA should stay put.	52.41%	87
A building or HQ is somewhat important, but the current location is not that important or even ideal.	22.29%	37
Moving the HQ from its current mainland location should be a priority, provided a good alternative location can be secured.	11.45%	19
I'm not sure a physical presence, owned or leased by TLA, on the Lake (or in Town), is necessary.	7.83%	13
TLA can and should consider becoming more of a “virtual” organization and abandon a physical presence for a HQ.	6.63%	11

ANSWER CHOICES	RESPONSES
Lake Temagami may lose its unique character if there's too much island development, so I think development/zoning restrictions should remain as they are. I prefer no change.	46.71% 78
To accommodate economic growth in the Town of Temagami, the development of mainland, within a small radius off the Town Centre, should be reconsidered. I'd support careful expansion that will benefit the Town economically - but that's the limit of changes I'd like to see.	26.35% 44
Protecting the Lake as articulated in the Tenets is important, but so is development. I think island building restrictions may have been too stringent.	10.18% 17
I don't worry too much about island development as long as there's no development on the mainland.	8.38% 14
Times change and so should restrictions on development. I think there should be more well-planned island development, as it's important for Temagami's economic future.	5.99% 10
