

On behalf of Council of the Municipality of Temagami, I would like to take this opportunity to wish everyone a Merry Christmas and Happy New Year.

2020 was an interesting year for sure and, like everyone else, we are looking forward to the promise of a different 2021.

Dealing with COVID-19 was our main focus this year and its affects are still being felt as 2020 draws to a close. Please stay safe and healthy and please take note of our regular updates.

Our Council and Staff have been trying to find new ways to adapt to our current situation. Using Zoom for Council and other meetings, for example, has helped us move forward.

One positive item that has emerged is the work of our Emergency Control Group and Coordinating Committee. To date, there have been 44 regular bulletins that have been posted throughout our community and shared through our extensive email data base with communicate@temagami.ca. If you have not yet signed up for these, please take a moment and send an email to register.

2021 will start with us moving forward with many of the processes started in 2020. There will be more detail as Council starts their meetings in 2021. Much of this will be shared, and input sought, through our communicate email. Also, our meetings are open to the public with notices posted on our website that include the link to our Zoom meetings.

As Mayor, I would like to thank everyone who has been involved in this work.

Again, Merry Christmas and Best Wishes for a Happy and Prosperous New Year.
